#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 22,42-47 are rejected under 35 U.S.C. 103(a) as being unpatentable over Manwaring et al in view of Wilk et al (WO 93/15648). Manwaring et al discloses an apparatus which includes a surgical tool and means for determining the actual position of the distal end of the tool relative to a desired position of the tool. Manwaring et al further provides a display for indicating such differences in position. The display includes a plurality of indicators. Reference numeral 46 represents the plurality of indicators which provide an indication to a human operator of a direction in which the tool should be moved to reach a desired position. With respect to claims 46, 47, it appears that the indicated direction that the tool must be moved is relative to a reference frame of the tool. Wilk et al disclose a surgical tool having a display on the tool. It would have been obvious to one skilled in the art to have modified Manwaring et al such that the display is mounted on the tool in order to provide a more compact system. The power source of the system would provide a means for activating the indicating means and the use of the modified system would result in the performance of the claimed method.

***Allowable Subject Matter***

Claims 1,7-13,15,26,29,31 are allowable over the prior art of record.

***Response to Arguments***

Applicant's arguments filed June 21, 2004 have been fully considered but they are not persuasive. With regard to the examiner's reasoning for combining Manwaring et al and Wilk et al, it is known in the art to want to make devices and systems more compact for ease of use and while this reasoning may be different from applicant's reasoning to modify the prior art, it is not considered to be "speculative" and "concocted

from hindsight". With respect to claims 46, 47, it appears that the indicated direction that the tool must be moved is relative to a reference frame of the tool.

**Conclusion**

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
